

# **WATER TREATMENT CHANGE NOTICE**

ON MAY 31<sup>st</sup> WE WILL BE CONVERTING OUR WATER TREATMENT FROM MONOCHLORAMINES (CHLORINE GAS AND LIQUID AMMONIA) TO FREE CHLORINE (CHLORINE GAS ONLY) AS PER STATED BY TCEQ. THIS IS SOMETHING WE ARE REQUIRED TO DO EVERY JUNE. AS THE TREATMENT PROCESS TRANSITIONS FROM ONE TO THE OTHER, THERE WILL BE A SLIGHT CHLORINE SMELL IN THE WATER. DON'T BE ALARMED, IT'S NATURAL AS THE PROCESS CHANGES. OUR WATER WILL STILL BE IN THE RANGE OF LEVELS OF DOSAGE REQUIRED. THE SMELL WILL DISSIPATE IN A COUPLE OF DAYS. ON JULY 1<sup>ST</sup>, WE WILL TRANSITION BACK TO MONOCHLORAMINES AND THERE WILL ALSO BE A SLIGHT CHANGE IN THE SMELL OF OUR WATER FOR A COUPLE OF DAYS. IF YOU HAVE ANY QUESTIONS OR CONCERNS, FEEL FREE TO CONTACT US.

THANK YOU SINCERELY,

CORY PETREY
